DETAILED ACTION

Receipt is acknowledged of preliminary amendment and IDS filed on 5/9/06. Claims 1-6 are pending in the application.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is new matter rejection.

There is lack of written description for claim 1, which recites “oil phase comprising waxes, oils, pigments and at least one oil-soluble or oil-dispersible polymer or copolymer... 12-20 rpm “.

See claim 8 submitted with the PCT application. Claim 8 recites “consisting of waxes... and an oil-soluble... copolymer”.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1619

Recitation of trademark name for Lycra is indefinite.
